

SEDAR® SUBSCRIBER UPDATE
August 7, 2001

SEDAR RELEASE 7.0

Release 7.0 of the SEDAR software is planned for implementation on September 4, 2001. The implementation date will be confirmed in a subsequent Subscriber Update.

The new release of the software and an updated Filer User Guide and Installation Guide will be distributed on CD-ROM later in August 2001.

Installation of Release 7.0

Note: When installing SEDAR R7.0 on a Windows NT 4 workstation or Windows 2000 Professional machine, the installation **must** be run by the “administrator” user account or by a user with administration user access. This is a requirement of MQ Series and not doing so will result in SEDAR not installing correctly.

Version 7.0 of the SEDAR Filer Manual will be available on CD-ROM later in the fall. However, a copy will be added to the web sites of the securities regulators in British Columbia, Alberta, Ontario and Quebec prior to the implementation of Release 7.0.

A Subscriber Update and CSA Notice to be issued later in August 2001 will explain the principal changes and enhancements made in Release 7.0.

**If you have any questions, please contact your local
Customer Support Representative or the SEDAR Help
Desk at 1-800-219-5381.**
