

SEDARâ Subscriber Update

February 5, 2004

Code Update (Version 007.001.015)

A SEDAR code update is scheduled for February 9, 2004. Its' size is approximately 65K and should take approximately 2 minutes to download using a 28.8K modem.

You are encouraged to obtain the code update as soon as possible on or after February 9, 2004 by following these procedures:

1. Starting the SEDAR program;
2. Selecting File menu; and
3. From the File menu, selecting Receive items from SEDAR server.

This method will help make sure that the application is updated and ready for your use before you actually have to perform any business functions.

This code update will bring the SEDAR client application up to Version 007.001.015.

Please be patient and **allow the download to finish before proceeding**. Once the code update has been downloaded, close the SEDAR program and follow the instructions below to execute the code update:

1. Click the Start button located at the bottom left corner of the screen;
2. Select Programs; and
3. From the Program menu, select SEDAR and then select Code Update.

Summary of Change

This code update will allow SEDAR to update its client code-update component itself, thus eliminating the requirement for any further CD releases, regardless of whether they contain clean-up, deletion or migration activities.

As a result, all changes to the SEDAR application, such as the removal of filing or document types will be possible through a code update download.

For more information, please contact your local SEDAR Customer Service Representative or the CDS INC. Help Desk at 1-800-219-5381.
